****

We acknowledge receipt of your letter No. CR. 15397-Pro/50 XC1 dated 8-8-50, and note that you are awaiting instructions from the Government regarding granting of permission for the denaturation of the rectified spirit with wood naptha.

As the supplies are over due and as our contract with the Government of India lapses on 14-9-50, the spirit has to be despatched before this date. Will you therefore kindly remind the Government to expedite the orders?.

As the matter is urgent, we have telegraphed to you today as per confirmation copy enclosed.

Yours faithfully,

Dear Sir,

Methylated Spirit - Industrial Grade II - 2380 gallons for supply to the Commandant C.O.D. Chheoki.

*****

We have the honour to bring to your notice that on the 25th April 1950, we applied to the Commissioner of Excise, Madras for permission to denature 2380 gallons of methylated spirit with 5% wood naptha which was required by the Commandant, C.O.D. Chheoki as per Supply Order No. SG-I/93125/E/2024 dated 1-4-50 received from the Directorate General of Industries and Supplies, New Delhi.

We followed this letter with several reminders, the latest being the 25th August 1950 to which we have received a reply from the Commissioner that the matter is still pending with you and your orders are still awaited.

You will note that it is five months since we applied for permission for denaturation and yet no decision has been communicated to us.

Our contract with the Supply Department lapses on the 14th instant and if the spirit is not issued before that date, the indent received from the Supply department has to be treated as cancelled.

We shall therefore be much obliged if you will look into this and expedite your orders.

Thanking you,

Yours faithfully,

REFERENCE:

17408 (B)

With reference to para 2 of the G.O. cited, the Board submits a copy of the report of the Distillery Officer, Hospet.

Methylated spirit (B.P.standard) is intended for export to Ordnance Factories, situated outside this State, where the conditions are quite different from those in this State. The Board therefore considers that so far as export is concerned, it would not adversely

(p.t.o)

affect the enforcement of prohibition. As for consumption in this State, the Board is of the opinion that it does not appear to be sound, from prohibition point of view, to allow the issues of this spirit to one and all, since wood-naptha can be easily separated. The question of according special permission for the manufacture and supply of this spirit may be considered on the merits of the requirement in each case as and when necessity arises.

Reference: Assistant Commissioner for Distilleries, letter R.O.C.B.No.13/P4/50 dated 21.2.1951.

Subject: Methylated spirit (B.P.standard) - Certain - Report Call.

Sir,

I beg to report that the issue has not taken place. Further the liquor is being sent to Ordnance Facteries functioning ammunition. Hence there is no chance of the liquor being misused. The places where it is to be sent are all areas where partial prohibition is in force and hence the local people will not have the urge to smuggle this liquor from the ordnance factories, when the licit potable liquor is available outside. Hence the question of "adversely affecting the enforcement of prohibition" is out of consideration.

Under the circumstances I submit that the issue of the B.P. standard methylated spirits does not affect adversely the enforcement of prohibition, as the issues are outside the Province. The conditions inside the Province are quite different, where there is total prohibition. It is stated, that the wood-naptha can be easily separated and pure rectified spirit obtained. Hence I submit that it is not advisable to allow this issue of the B.P.standard methylated spirit to one and all. The needs of the industry may be considred and special sanctions given wherever and whenever necessary and the status of the applicants considered before sanction is given.
